

# Maintenance Excellence and Your Bottom Line Lunch and Learn

## Wednesday, January 29, 2025

In the United States, we spend approximately \$180 billion every year on wasteful maintenance practices such as:

- Travel time
- Waiting at the parts crib
- Temporary repairs
- Looking for maintenance tools
- Emergency shipments of repair parts

**We have the potential to reduce these costs significantly.**

A major reason there is so much waste is how maintenance is viewed in an organization. Generally, maintenance is viewed as a “luxury” or “a necessary evil,” and perhaps the most common view is a “cost center.” However, when leaders understand that a well-organized and supported maintenance department is not a cost center but a capacity generator, they can take control and significantly impact:

- Quality
- Cost
- On-Time Delivery
- Safety

During this lunch and learn, participants will not only gain a better understanding of World-Class Maintenance, but also learn how it can positively affect the bottom line, making this session highly relevant and beneficial for all attendees.

**Who Should Attend:** Owners, Executives and Decision Makers in charge of facilities/machine maintenance programs.

**EVENT TIME**  
10:30 am - 1:00 pm

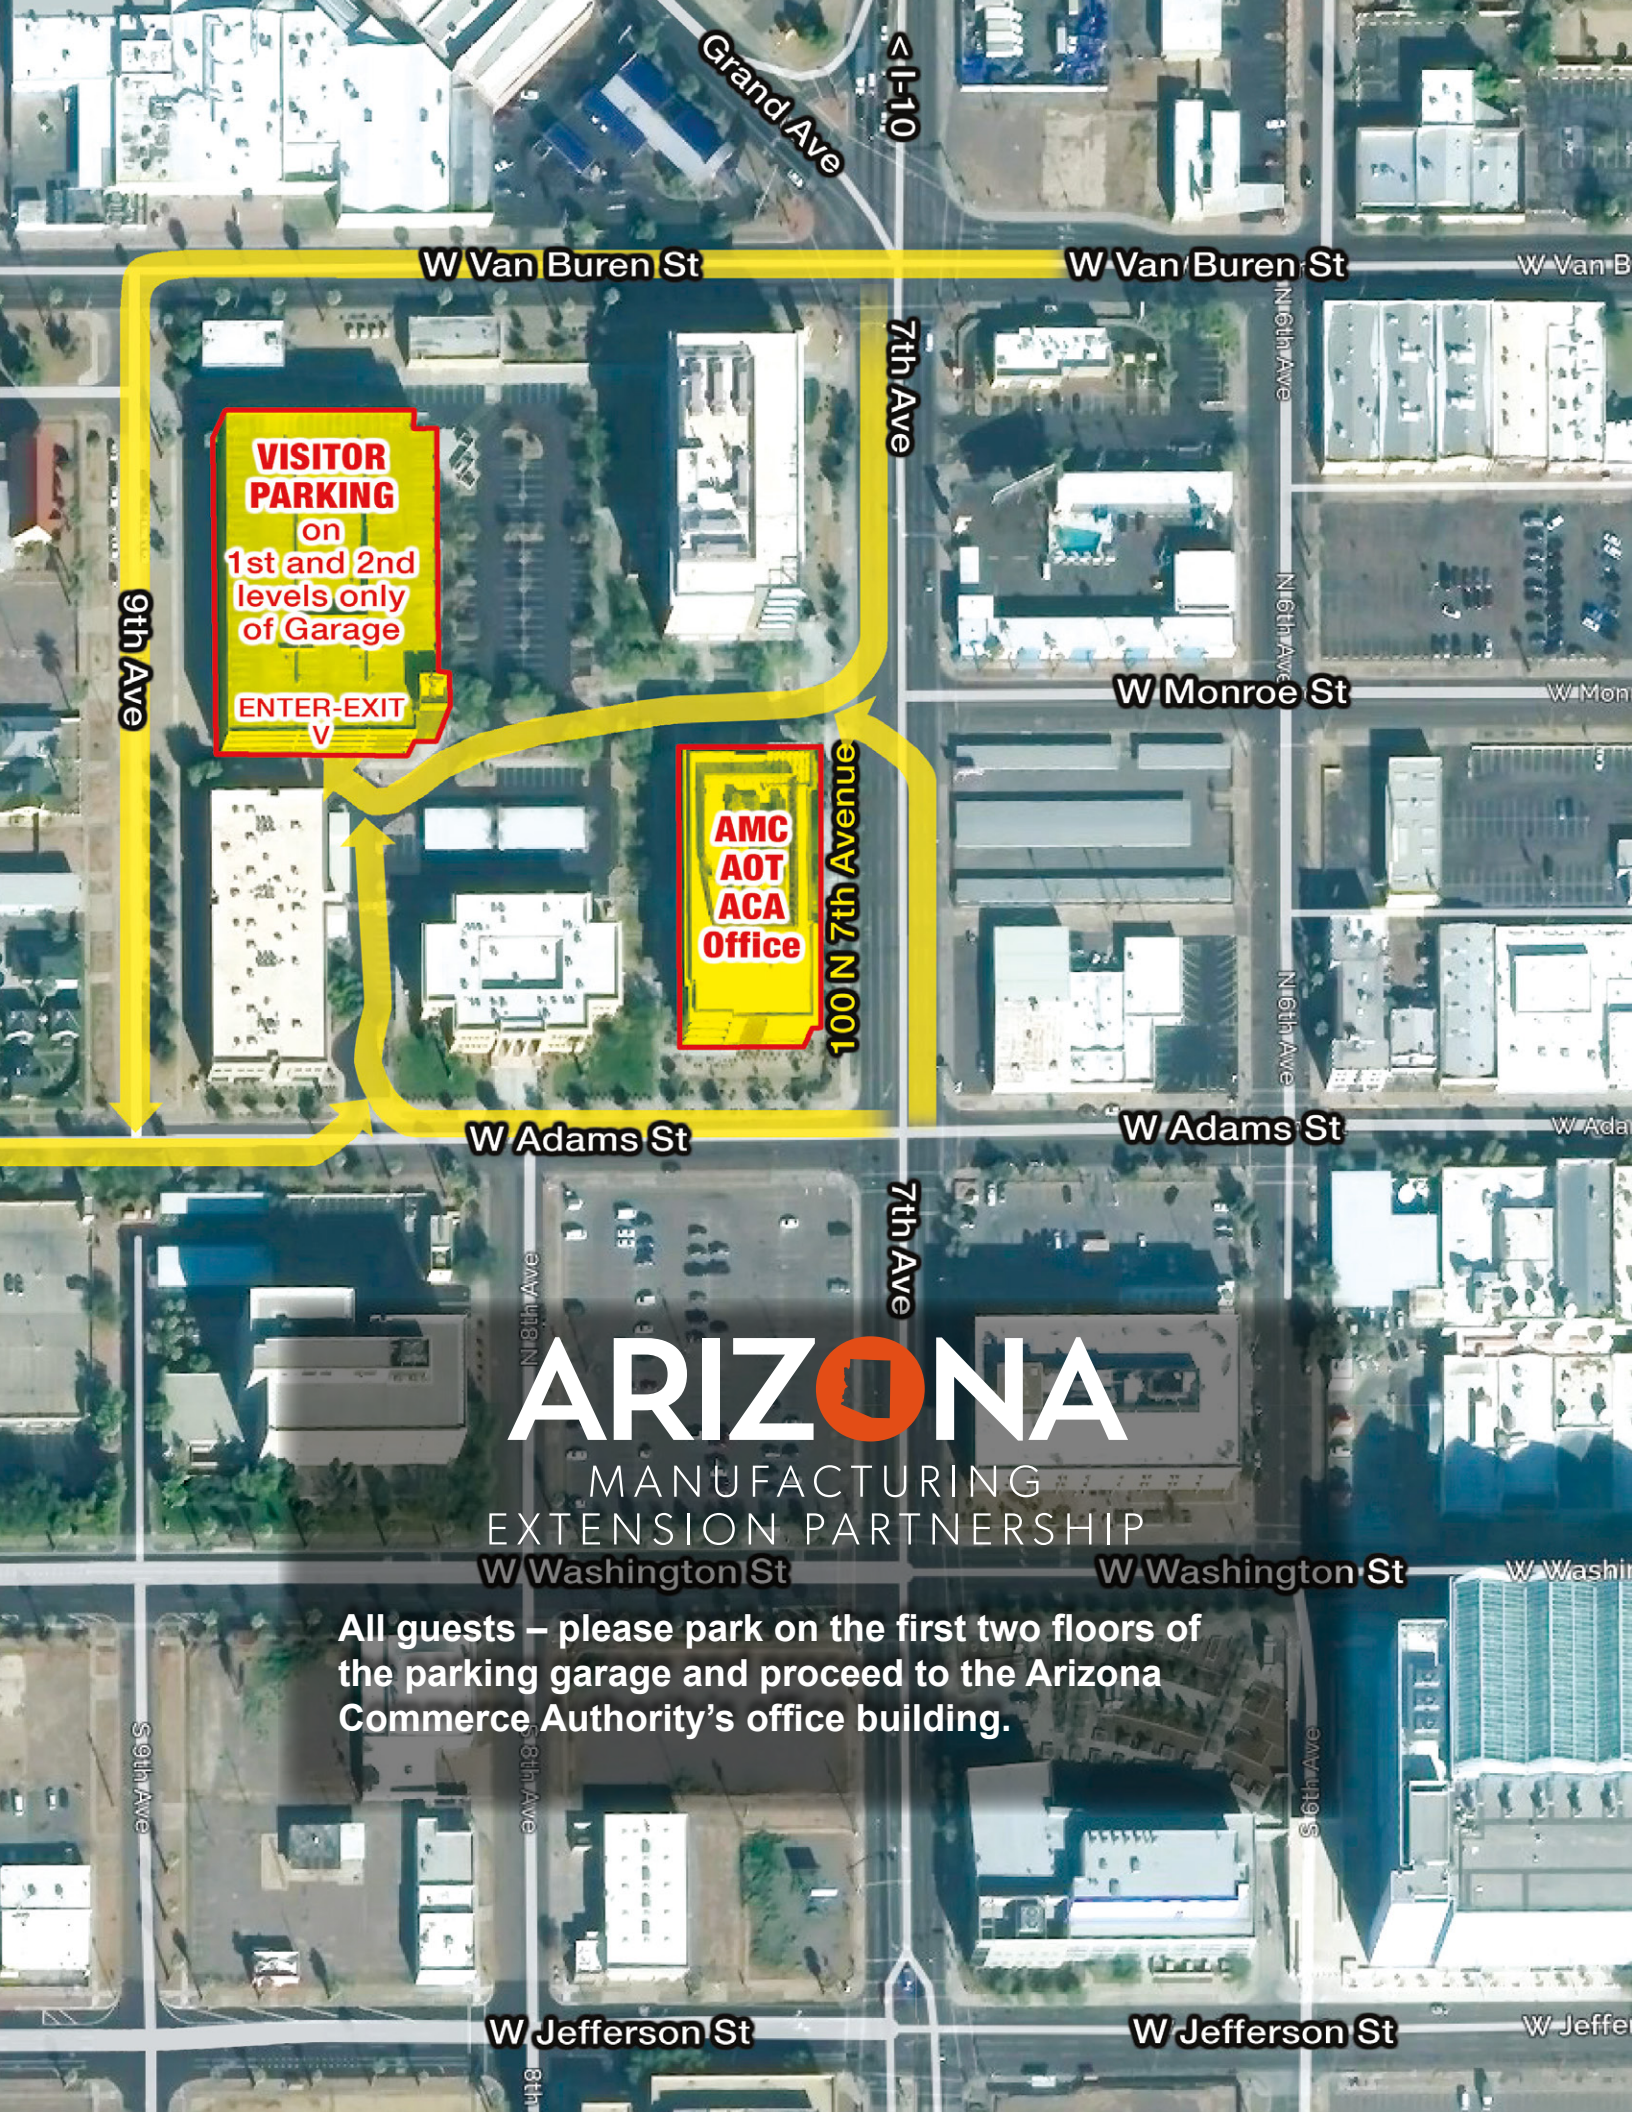

**Cost:**  
**\$100.00**  
per person

**WHERE**  
Arizona Commerce  
Authority  
100 N 7<sup>TH</sup> Avenue  
Phoenix, AZ 85007  
First Floor Conference  
Center
