Exceptional manufacturing executives invest time in refining their own skills to leverage their workforce and grow their business.

Thanks to this exclusive pilot program, AZ MEP is offering you an opportunity to advance or refresh your skills as you set an example of lifelong learning and continuous improvement. AZ MEP allows you to access first-class executive education without the expense of airfare, hotels, and time away from your business.

**Prior AZ MEP and EEE joint program participants
have shared comments like this:**

"(Faculty did a) Great job in engaging the audience. Content was useful and well delivered."

"The content was relevant and useful."

"Great opportunity to take this information and put it to practice to be able to grow more confidence not only in our work place but also how to manage and be aware of those emotions in personal life."

One benefit of executive education is getting or refreshing management and leadership skills from top faculty. Not only do faculty craft ways to apply and practice such skills, but executive education also allows you to network with others who face similar challenges and learn how they have approached solutions.
