

Advanced Supply Chain Professional Development

Wednesday, April 2, 2025

In cooperation with UA Eller Executive Education, the Arizona Manufacturing Extension Partnership (AZ MEP) a professional development opportunity to help supply chain professionals hone their strategic and tactical skills to leverage their organizations supply chain as a core competency to drive more profit while mitigating risk.

This program covers essential supply chain management concepts, including Forecasting, S&OP, Make/Buy Analysis, Material Planning, Inventory Management, Global Supply Chain Challenges and Risk Management, all through the lens of Artificial Intelligence and Cybersecurity.

The aim is to address modern SCM trends and challenges, and provide insights into supply chain resilience and leverage the tools to navigate the evolving supply chain landscape. Practical exercises are included throughout.

With assistance from the Supply Chain Optimization and Intelligence Network (SCOIN) a program under the US Department of Commerce and NIST, and with funding from the CHIPS and Science Act the program attendance fee is being offered for \$750.00 per manufacturing attendee.

Who Should Attend:

Buyers, Planners, Materials Managers, Supply Chain Managers, Operations Managers, Business Owners and anyone looking to improve and update their knowledge in supply chain best practices

Event Time:
8:00 am - 4:30 pm
